

Which is the most often used English word today, which starts with “F” and ends with “K”?

Oops! U guessed it wrong! It is indeed ...

“FACEBOOK”

On February 2004, when a 19 year old Harvard sophomore launched a site from his hostel dormitory, he would not have really thought that it would become a universal religion.

Now after seven years, www.facebook.com, has become one of the biggest web sites in the world, visited by over 500 million people a month and the most “happening” thing on this planet !!!

With an estimated revenue of around USD 2 billion and connecting more than half a billion people and mapping the social relations among them, for creating a new system of exchanging information and for changing how we live our lives, Mark Elliot Zuckerberg is the most deserving TIME's 2010 Person of the Year!!!

Swamy Associates proudly associate itself with this social networking giant. I am sure, as rightly claimed by the site, it would help us to connect and share with the people in our life... our esteemed clients !!!
